STEEL INDUSTRY TECHNOLOGIES

Filtrec is a **key supplier** of filter and filter elements for steel industries **all over the world**.

The **R&D Department** develop a range of new **products and solutions** to always meet the industry requirement.

Our filters are the **ideal solution** to accomplish the needs of the steel processing industry.

All the products are uniquely designed as preventive and reliable solutions that **improve plant operations**, while **preventing the damage** to critical equipment and processes.

Filtrec technical specialists will provide the correct filtration technologies that **conform to your system**.
